

Colorcon No-Tox® Products Quality Policy

Colorcon's No-Tox® Products Division, located in Chalfont (PA-USA), manufactures various types of specialty printing inks and coatings for the food packaging, pharmaceutical packaging, medical device, medical packaging and cosmetic industries.

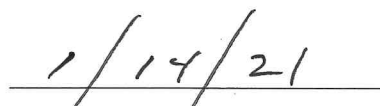

Colorcon No-Tox® Products is committed to providing the highest quality products and services that meet or exceed our customers' expectations and comply with all applicable statutory and regulatory requirements. We manufacture and supply products to agreed-upon specification on a continuously reliable basis.

In order to achieve this, we have adopted a quality management system containing processes and procedures that meet legal requirements and industry best practices. This allows us to offer the highest level of competence to our customers as well as to independent organizations or authorities.

Colorcon No-Tox® Products pursues the goal of continuous growth and success of the company by using optimized technology and by continual improvement practices in all areas of what we do. We have modeled our Quality Management System according to ISO 9001:2015, which manages the records and documents that support our objectives. All employees are obliged to comply with these practices. Through the application of our Quality Management System, we strive to ensure the satisfaction of our customers while supporting continuous quality and safety improvements. Objectives are set and continually monitored to allow for the management of company, safety, and quality goals.

To ensure the success of this policy, our management team is directly responsible for, and committed to, product safety and quality by ensuring that all necessary resources for the implementation and maintenance of this policy are provided. Additionally, safety and cGMP trainings are provided to all employees to enable them to perform their tasks in such a manner so that their safety, as well as the safety of the products that they handle and manufacture, is not put at risk.
